Read the passage and answer the following questions.

Some time ago, Ghana had very large area of forest. The forest look very beautiful and were Safe living place for many animals and other creatures. Many rivers and streams also how through them. Forest are very useful to us because we depend on them for our needs.

We get food, medicine, shelter and water from the forest. They are also the source of the oxygen that we breadth in.

Today, however Ghana is without many of the beautiful forest creatures. Many of the forest have disappeared because of human activities we hunt the animals in the forest for meat, clear the forest and grow crops on the land for food.

One way to make sure that our forest do not disappeared is to stop destroying them.

Another way is to plant trees to replace those that have been cut we should also have forest reserves where animals will live and trees will continue to grow.

Answer the following questions

- How is forest useful to human beings.
- 2. What destroy our forest.
- 3. Name one that we do that destroy our forest
- 4. In what way can we make sure that our forest do not disappear.
